CompTIA Network+

Exam Code N10-005

The CompTIA Network+ certification is the sign of a qualified networking professional.

The exam covers network technologies, installation and configuration, media and topologies, management, and security. Candidate job roles include network administrator, network technician, network installer, help desk technician and IT cable installer.

Companies such as Dell, HP, Ricoh, Sharp and Xerox recommend or require CompTIA Network+ for their networking technicians. It is a technical prerequisite option for IT technicians seeking to join the Apple Consultants Network, and is recognized by the U.S. Department of Defense.

The current version of CompTIA Network+, exam code N10-005, was released Dec. 1, 2011. The revised objectives address virtual networking and give increased attention to network security and coverage of the seven-layer OSI (Open System Interconnection) model.

CompTIA Network+ N10-004 Retirement Dates

English, Japanese and Taiwanese versions: Aug. 31, 2012
Spanish, German and Korean versions: Fourth quarter 2012

The CompTIA Network+ certification is accredited by the International Organization for Standardization (ISO) and the American National Standards Institute (ANSI). The CompTIA Network+ certification may be kept current through the CompTIA Continuing Education program
